

# MOBILE APP OVERVIEW

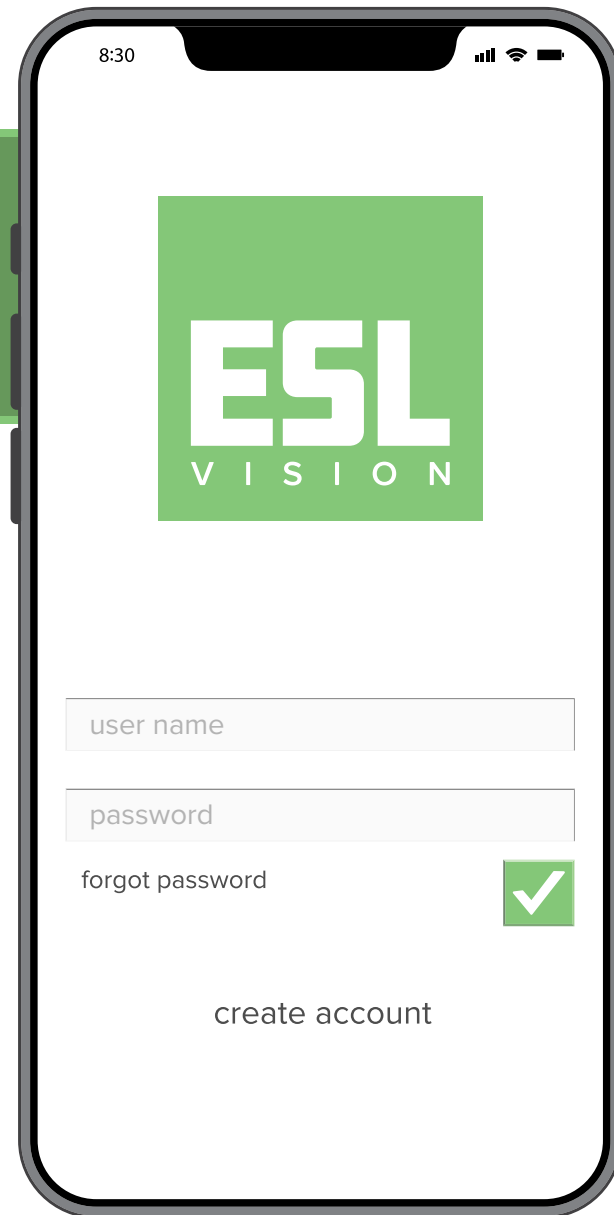

# GETTING STARTED

*The ESL Vision app is the easiest way to learn-in your new fixtures, create groups, and adjust light settings.*

*Before we get started, ensure that your device has a network connection.*

1

To get started, tap **CREATE ACCOUNT** located at the bottom of the login screen.

2

Select your  
Country / Region.

3

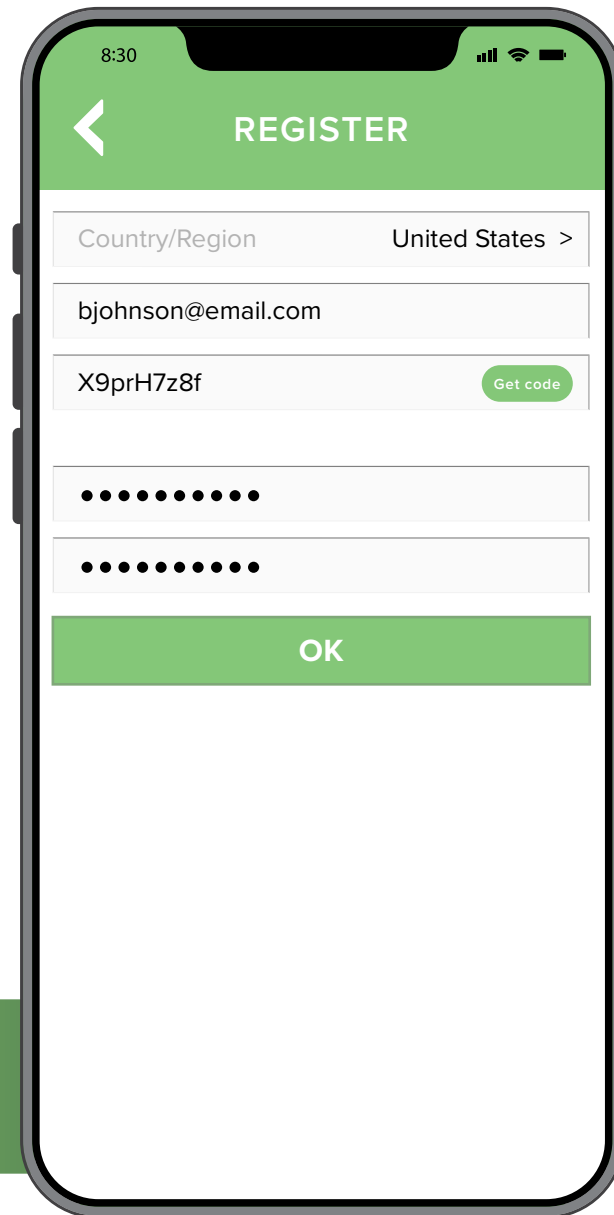

Enter your mobile number or email address.

\*You will receive a verification code via text or email.

**WARNING**  
*Only use the information of  
the end-user, not the installer.*

*This is the initial set up for the account and cannot  
be changed once all fixtures are learned in.*

*You now have the ability to learn-in  
and control your lighting!*

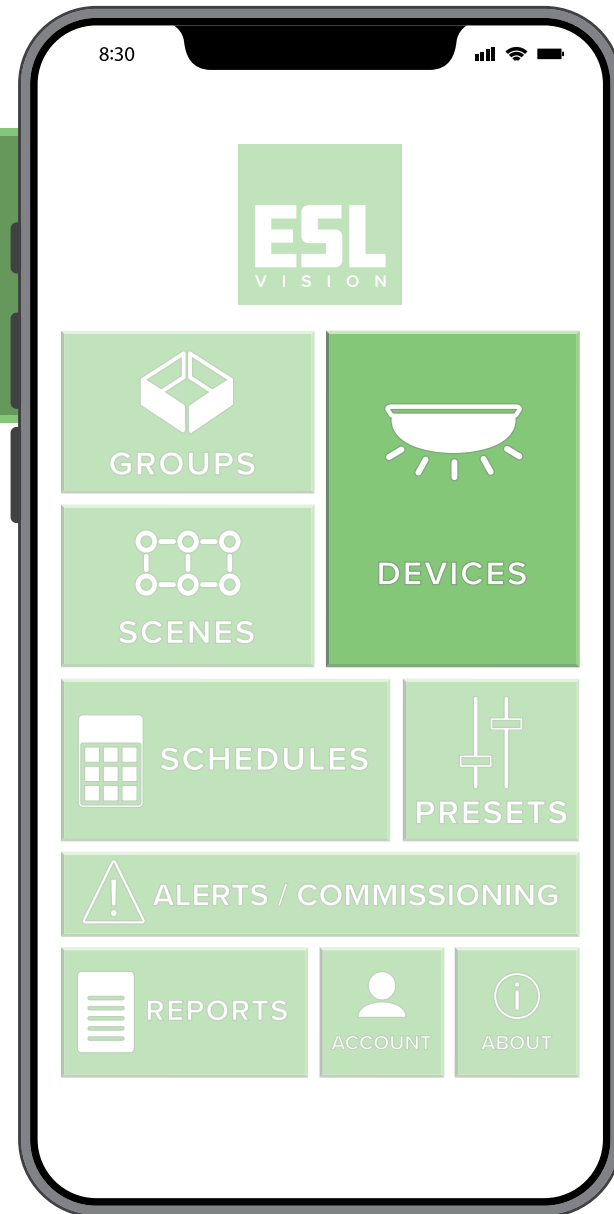

# LEARNING-IN LIGHT FIXTURES

*Now let's learn how to commission fixtures  
with Konex and the ESL Vision app.*

*Once the fixtures are installed, restore power  
to the location you are commissioning and  
open the ESL Vision app.*

1

Tap the **DEVICES** button  
on the homepage.

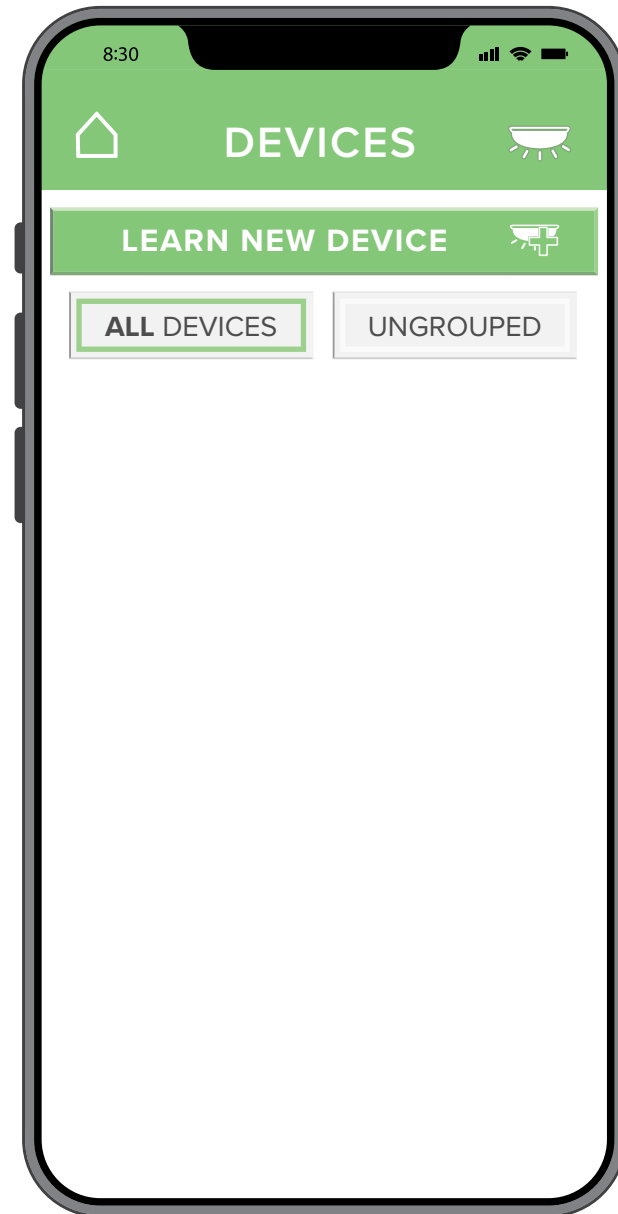

*This icon will appear while your device is connecting. Once you're connected the icon will disappear and you may continue.*

2

Tap **LEARN NEW DEVICE**.

3

In the dropdown menu, select **ADD WITH BLUETOOTH**.

4

Once your fixtures populate, tap the plus sign (+) on the first fixture.

*The fixture will blink multiple times while it is being learned-in.*

5

Next, tap the fixture to rename it.

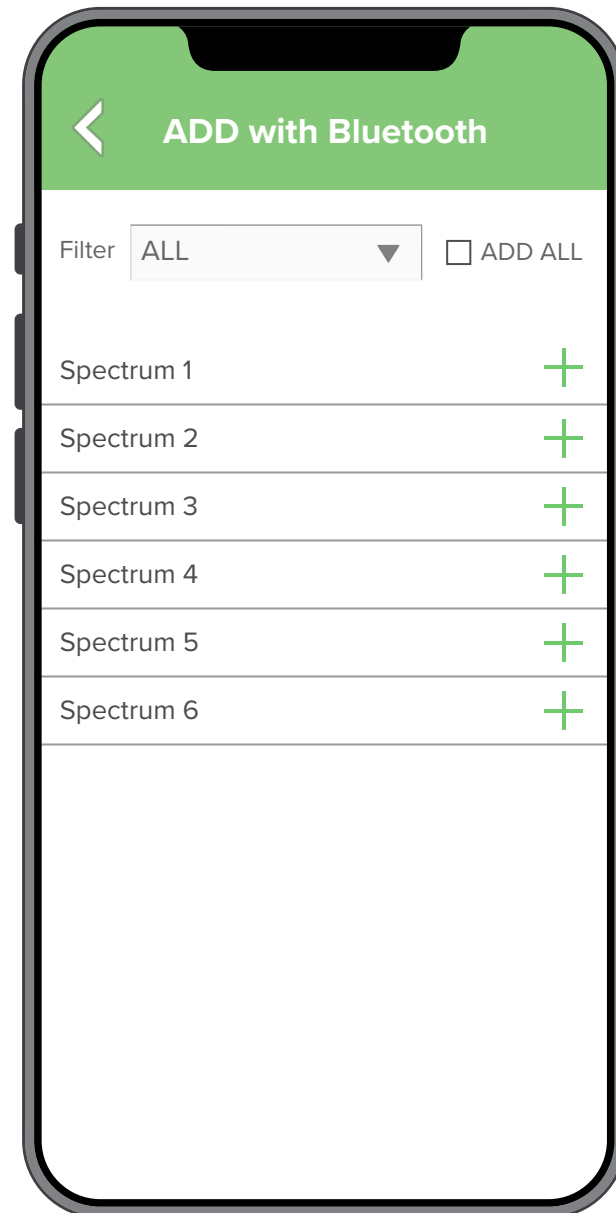

EDIT NAME 

Office Fixture North

Cancel 

*Repeat this process for the rest of the fixtures*

6

Return to the **DEVICES** page.

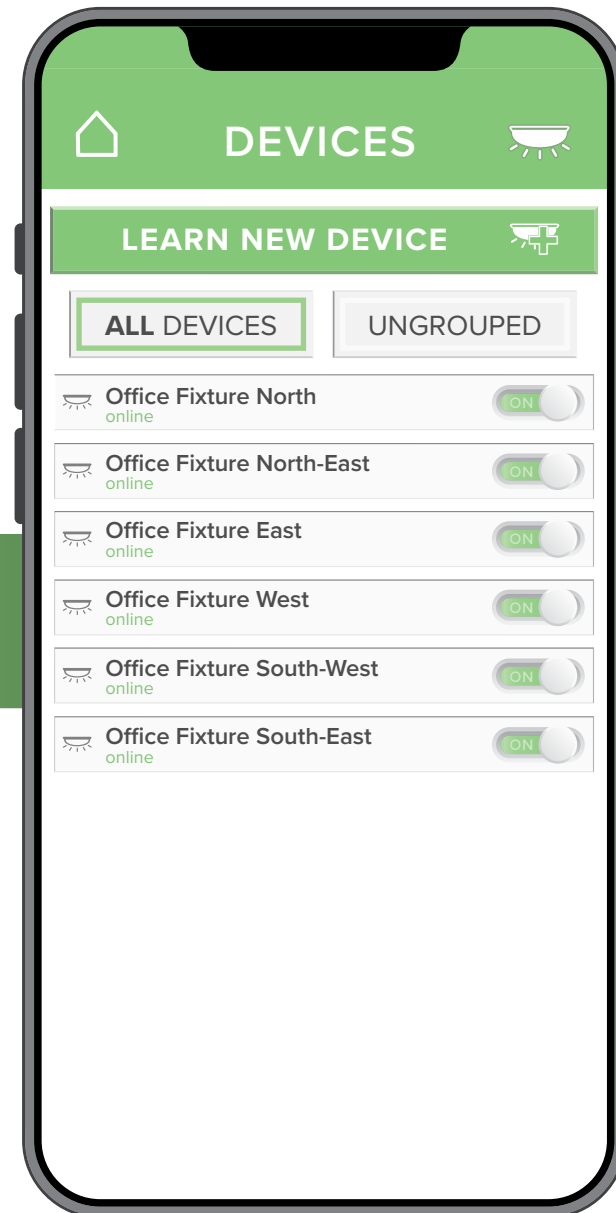

You can control the fixtures here by using the **ON/OFF** toggle.

*Congratulations!*  
*Your fixtures have been learned-in.*

### QUICK TIP

- Learn in one room at a time.
- Turn off the power in other rooms to reduce the number of fixtures that populate.

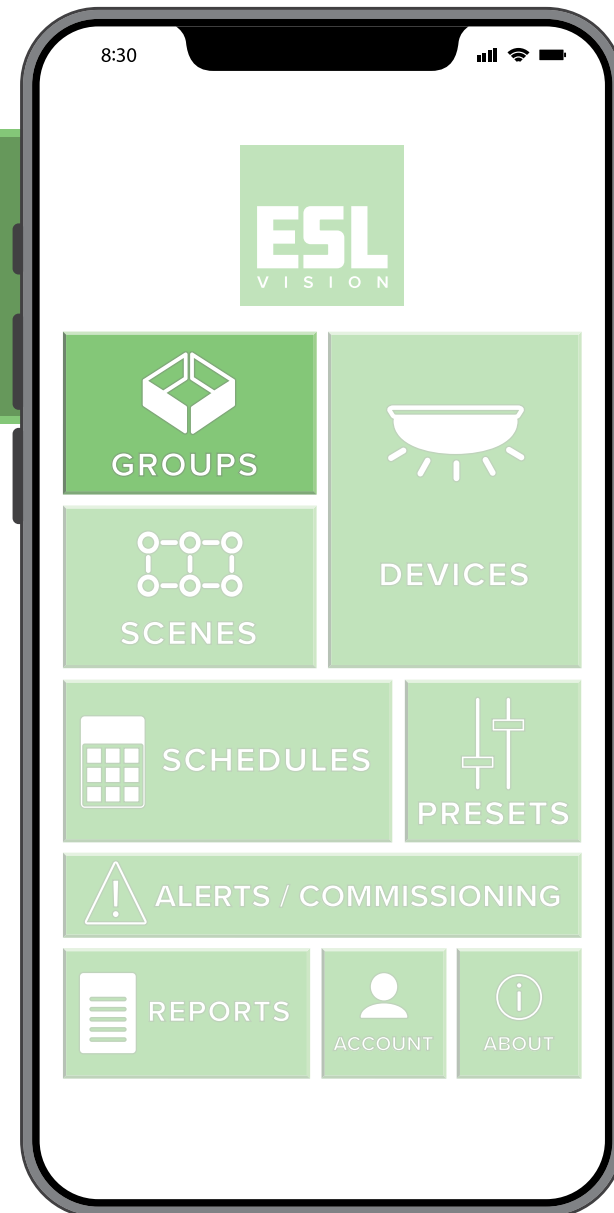

# CREATING GROUPS

*Groups are an easy way to organize your fixtures.*

1

Tap **GROUPS** on the ESL app homepage.

2

Next, tap **CREATE NEW GROUP**.

3

In the popup menu, create a name for your Group.

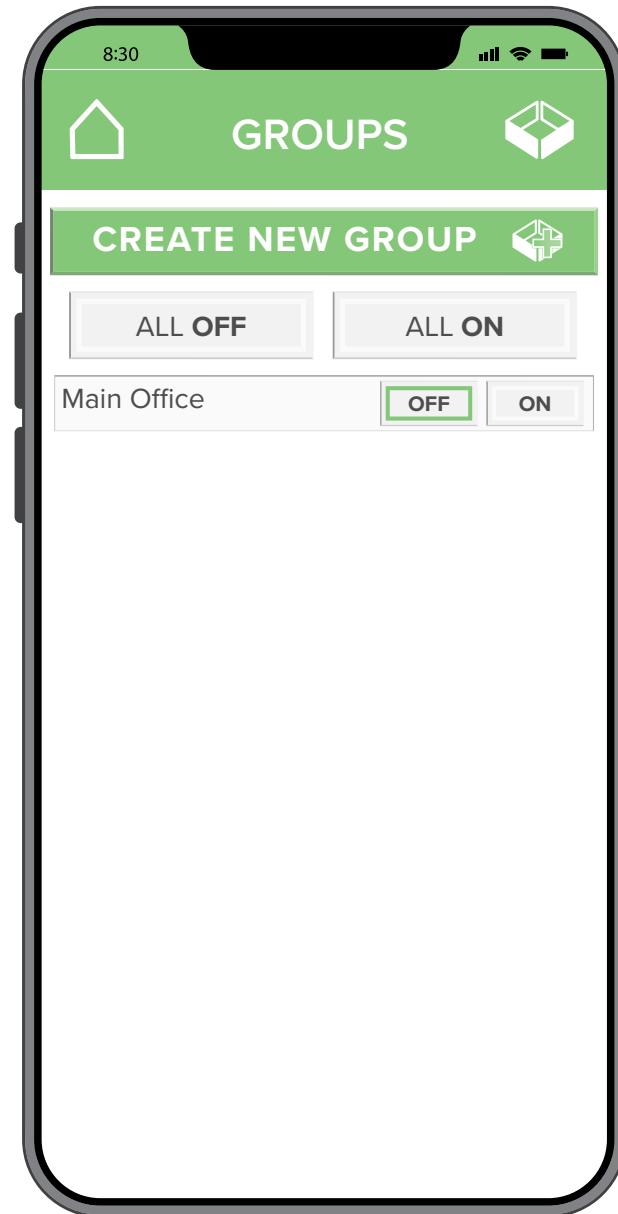

CREATE NEW GROUP 

new group name

cancel 

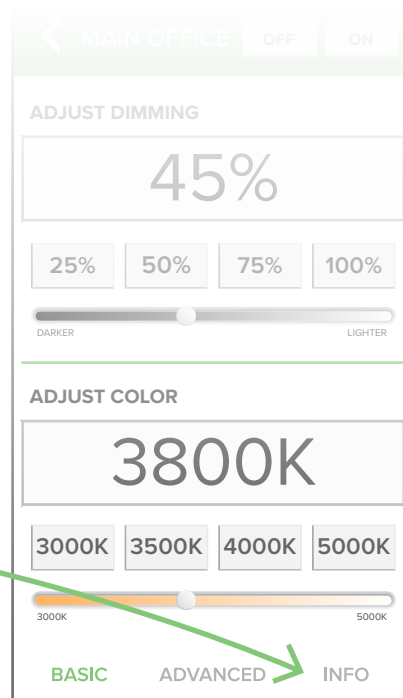

4

Tap your newly named Group.

5

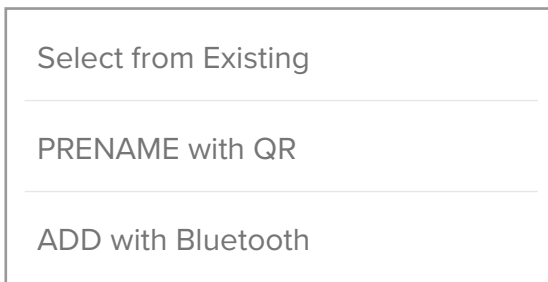

This screen will appear. Click the **INFO** tab located in the bottom right corner.

6

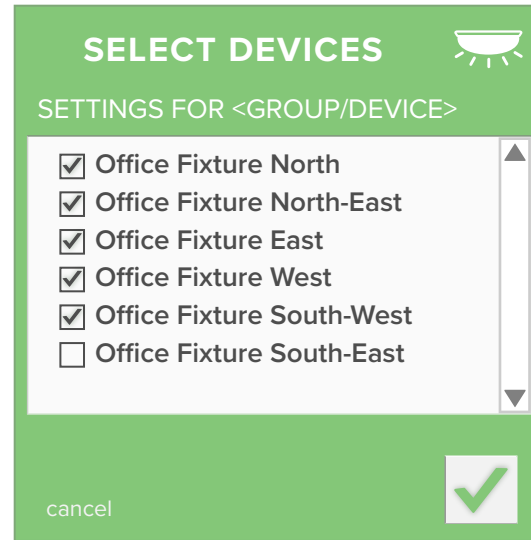

Tap **ADD NEW DEVICE** to add new fixtures to your Group.

Choose **SELECT FROM EXISTING**.

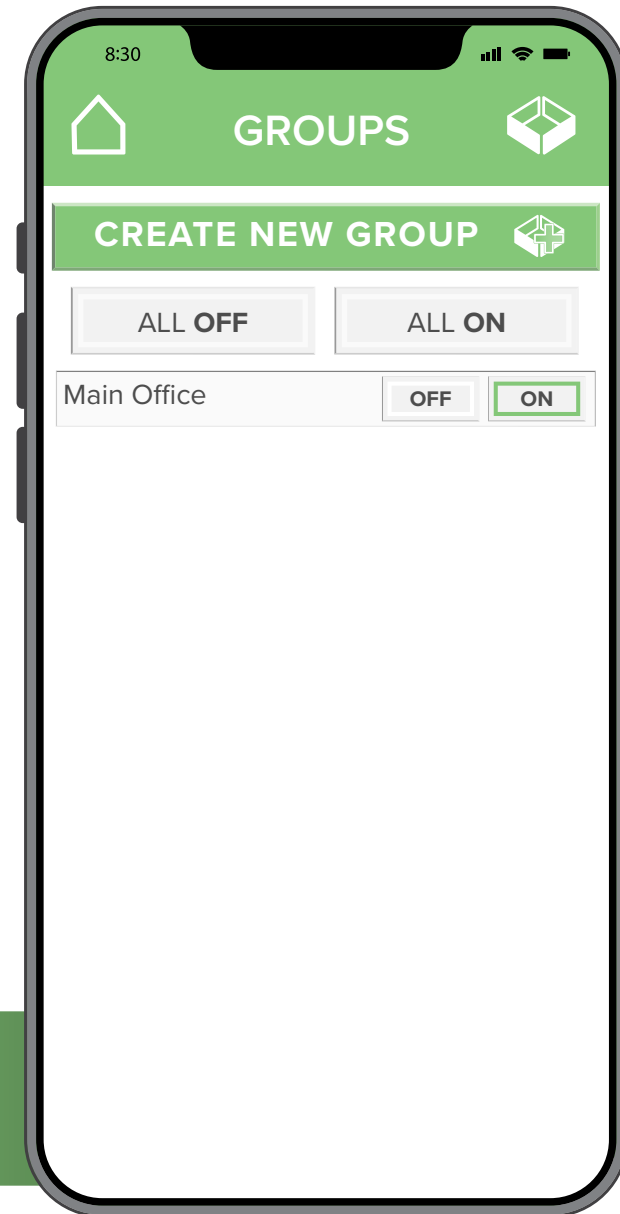

7

Select all of the  
Fixtures you  
would like added  
to your Group.

8

Return to the **GROUPS** page.  
You can turn your Group  
ON/OFF from here.

*Great Job!*  
*You have created your first Group!*

# ADJUSTING LIGHT SETTINGS

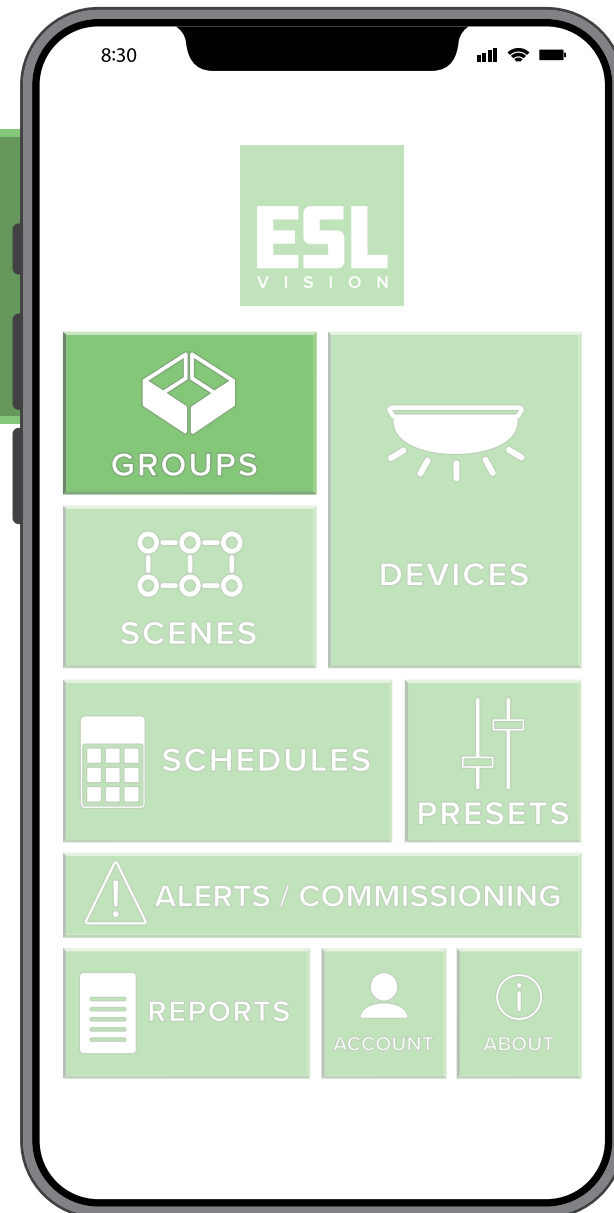

*Now that your fixtures have been learned-in, let's customize the color and brightness.*

1

First, tap the **GROUPS** button on the homepage.

2

Tap the Group name.  
Make sure the fixtures are turned on.

*Dimming can be adjusted by using the slider or the buttons presets.*

*Adjusting the color is as easy as moving the slider to the desired kelvin.*

***Congratulations!***  
***You now have access to over 95,000 lighting possibilities in one fixture!***
