# SPECTRUM SERIES

920 SERIES PANELS

ENDLESS LIGHTING POSSIBILITIES

The Spectrum Series is a cutting-edge family of wirelessly controlled fixtures that are both wattage adjustable and kelvin tunable. Commissioning, grouping, and adding Konex sensors and switches is a breeze using the ESL Network Lighting App. Spectrum offers an incredible kelvin range of 2700K–6500K, ensuring that end users will have their preferred light output on every project. The embedded TAP technology, included with each Spectrum fixture, allows stocking distributors to minimize their inventory while capturing lost revenue.
