

Key Features & Benefits:

- Standard On/Off Control
- Two Leads for 0-10V Dimming
- Two Leads for Future Proofing
- IP 66 Weather Resistant - Silicon Rubber Gasket

Technical Specifications:

Working Voltage: 480 VAC Max
 Loading Capacity: 15 Amp Max
 Rated Frequency: 50/60Hz
 Ambient Temperature: -40 ~ 158°F(-40 ~ 70°C)
 Lead Gauge: AWG#14
 Lead Length: 12"
 Dimensions (ØxH): 2.56" x 1.38"
 Weight (lbs): 0.21 lbs
 *Comes factory installed on fixture

Project: _____ Date: _____
