

# LED LINEAR HIGH BAY SERIES

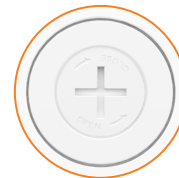

## ELEVATE WITH ULTRA-SLIM LINEAR HIGH BAYS

Introducing our most advanced Linear High Bay series—designed for peak performance in any industrial setting. These high bays offer the most versatile range of kelvin and wattage selectability, delivering over 61,000 lumens in our smallest form factor yet.

### Four Powerful Fixtures

- High Lumen Output
- Selectable Kelvin
  - 4000K–4500K–5000K
- Selectable Wattage Ranges

### Integrated IntelliSense™ Receptacle for Sensors

- SoloSense™
- MultiSense™

### Selectability Comes Standard

- Fixture Level Controls

## Four High Efficiency Lumen Packages

From 38,250 up to 61,842 Lumens – Up to 171 lm/W

From 25,500 up to 39,263 Lumens – Up to 176 lm/W

From 19,500 up to 26,653 Lumens – Up to 174 lm/W

From 11,250 up to 20,432 Lumens – Up to 173 lm/W

### Multiple Mounting Options

- Air Craft Cable Mount
- Surface Mount Kit
- Pendant Mount

# INTRODUCING INTELLISENSE™

The IntelliSense™ series of fixtures comes equipped with integrated receptacles for SoloSense™ and MultiSense™ controls. These controls offer streamlined functionality and customizable lighting for any environment. Whether you need precise control for a single fixture with SoloSense™ or seamless network integration for an entire system with the BLE-enabled MultiSense™, IntelliSense™ provides the perfect solution to meet your lighting needs.

**SOLOSENSE™**

**MULTISENSE™**

**One Form Factor,  
Two Levels of Control.  
Powered by IntelliSense™**

## **Standalone Single Fixture Control**

- Daylight Harvesting
- PIR Motion Sensing
- Standalone Fixtures
- Remote Operated

**INTELLISENSE™**

## **Networked Multiple Fixture Control**

- Daylight Harvesting
- PIR Motion Sensing
- Bluetooth Mesh Network
- Android and iPhone App
